1. AO = Administrative Order closed after compliance with the requirements of the order; APO = Administrative Penalty Order requiring compliance with environmental regulations and assessing a penalty; CACO = Consent Agreement and Order requiring compliance with environmental regulations and/or assessing a penalty; CJ = Civil Judicial Case with the Department of Justice

2. All penalties are Final

3. SEP = Supplemental Environmental Project

#### **Narrative Summary:**

**THE CONSUMER CONFIDENCE REPORT (CCR) RULE:** This rule is an important part of the 1996 Amendments to the Safe Drinking Water Act (SDWA). The CCR final Rule, which became effective September 18, 1998, provides a framework that water suppliers will use to give consumers information on their drinking water. Under 40 CFR Part 141 Subpart O, all community water systems (CWSs) were required to provide their customers with an annual quality report or CCR by October 19, 1999. Some CWSs have delivered the first round CCR reports to their customers but some did not comply with this rule. The majority of the enforcement actions listed as SDWA violations are the water systems that did not comply with the first round CCR rule and were targeted for the administrative orders by EPA Region 6.

**ENNIS AGRI-TECH AT ENNIS, TX (TXD988043998):** EPA filed a CACO against Ennis Agri-Tech, Inc. The CACO resolved the allegations of the Complaint for violations of the Resource Conservation and Recovery Act (RCRA). RCRA violations included storing hazardous waste without a permit or interim status and without meeting the permit exemption requirements. All violations were determined as part of a January 28, 1998 Compliance Evaluation Inspection (CEI), and subsequent Requests for Information. The Respondent agreed to pay \$12,100 for the alleged violations in the Complaint/CACO.

**NORTHLAND, A SCOTT FETZER COMPANY, EL PASO, TX:** A consent agreement and final order was filed against Northland, a Scott Fetzer Company for violations of the Resource Conservation & Recovery Act. The complaint was filed on March 31, 2000. Northland declined the opportunity to perform a Supplemental Environmental Project. Northland is the Importer of Record for Electrotecnica Del Norte in Mexico. A 3007 Request for Information letter was issued to the facility. The facility failed to have a proper EPA identification number, to maintain on-site a copy of Land Disposal Restriction notices and certifications, to prepare the TNRCC Foreign Waste Shipment Summary, and to prepare the manifest according to the instruction. EPA assessed a civil penalty of \$20,515 which was paid in full, May 31, 2000. Northland corrected deficiencies.

**ZENECA AGRICULTURAL PRODUCTS (TXD082016031):** During a Compliance Evaluation Inspection (CEI) on May 6, 1998, EPA found that the Respondent was storing hazardous waste in a container located at the hazardous waste container storage

area (CSA) without meeting the permit exemption requirements. EPA also found that the Respondent failed to make a hazardous waste determination on the solid waste stored in both of the containers stored in the Maintenance Shop (MS) CSA and a container stored in the covered CSA. Consequently, the Respondent was storing hazardous waste in containers located at the MSCSA and the covered CSA without meeting the permit exemption requirements. The Respondent agreed to pay \$39,380 for the alleged violations in the Complaint.

**S.B. FOOT TANNING CO.:** In September 1997, EPA Region 6, made a civil referral to the United States Department of Justice, against S.B. Foot Tanning Co., a subsidiary of Red Wing Boot Co. of Red Wing, Minnesota. The civil referral was for violations of S.B. Foot's requirements as a categorical industrial user at its facility located in Cactus, Texas. The case has been settled with a Consent Decree for a total penalty of \$1,436,939.60. The total penalty amount represents a cash component of \$510,439.60, two supplemental environmental projects (SEPs) with capital costs of \$864,000, plus operation & maintenance costs for SEPs amounting to \$62,500. The two SEPs are: chromium reduction SEP and sodium reduction SEP. In addition, the Consent Decree addresses injunctive relief issues to bring the facility into compliance. The Consent Decree was entered in the United States District Court for the Northern District of Texas, Amarillo Division, on June 05, 2000.
